

Cell identities on shared coordinates

Synthetic embedding coordinates | not a computed UMAP

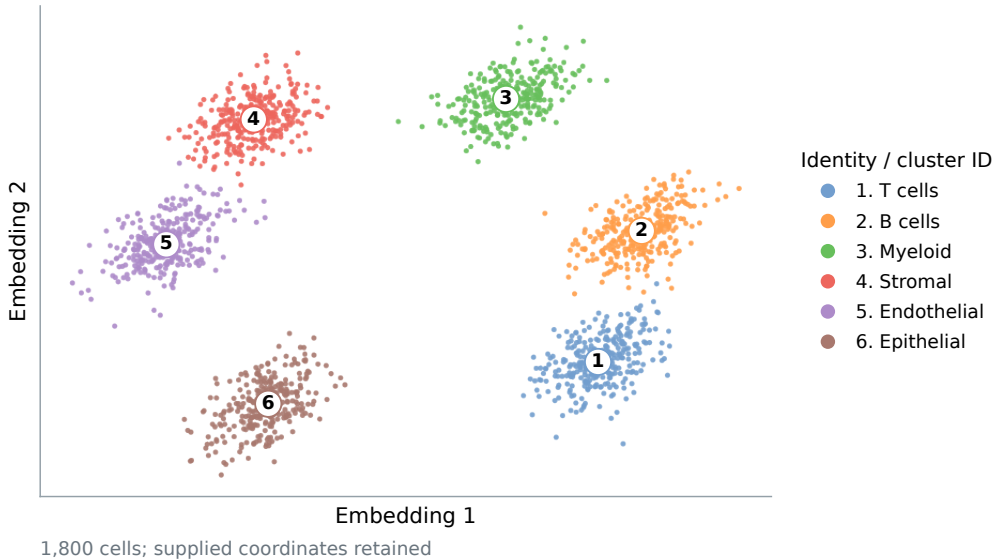

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Cell identities on shared coordinates

Synthetic embedding coordinates | not a computed UMAP

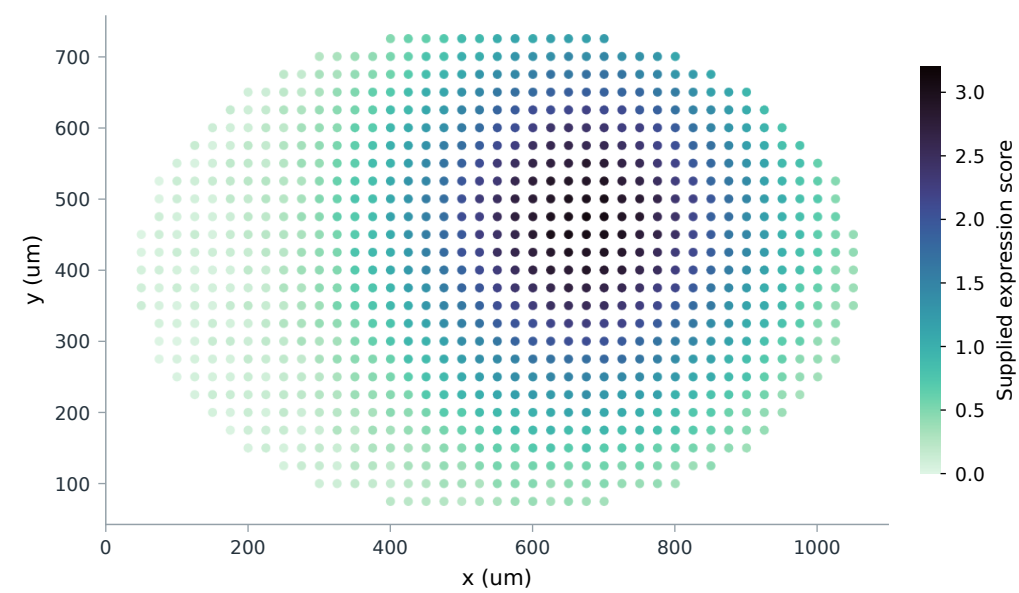

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature Genetics 2024, Fig. 3a-b,g-h
DOI: 10.1038/s41588-024-01664-3
Comparison scope: Figure 3 and Figure 5 images directly inspected; captions read
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Spatial expression pattern

Synthetic style fixture | identical data in both versions

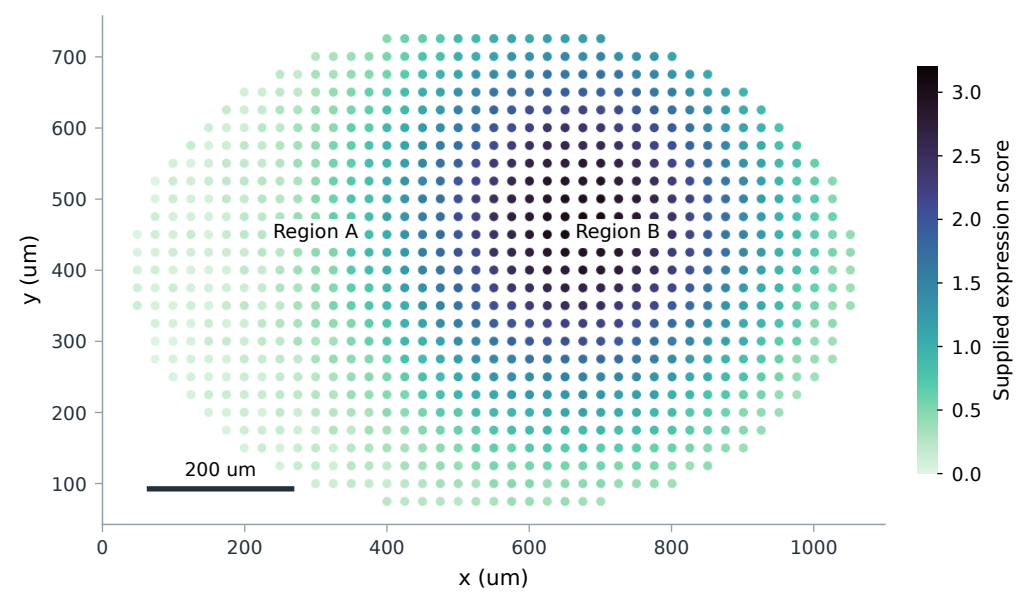

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Spatial expression pattern

Synthetic style fixture | identical data in both versions

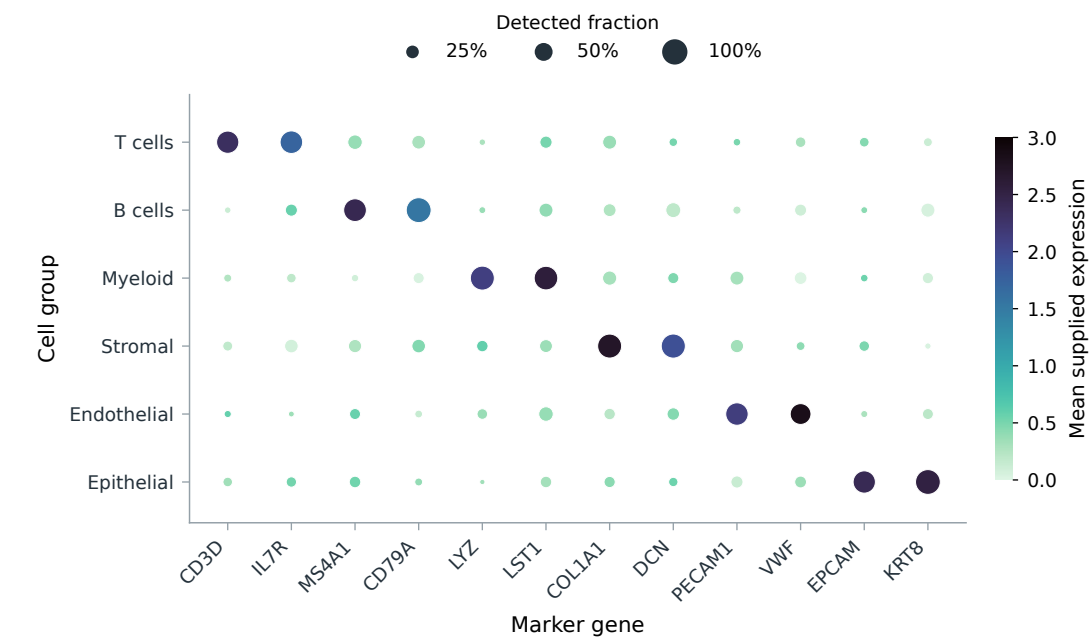

One section; supplied region assignments
ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature 2025, Fig. 3
DOI: 10.1038/s41586-024-08453-2
Comparison scope: Published captions read; no pixel-level figure reproduction
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Marker expression and detection

Synthetic style fixture | identical data in both versions

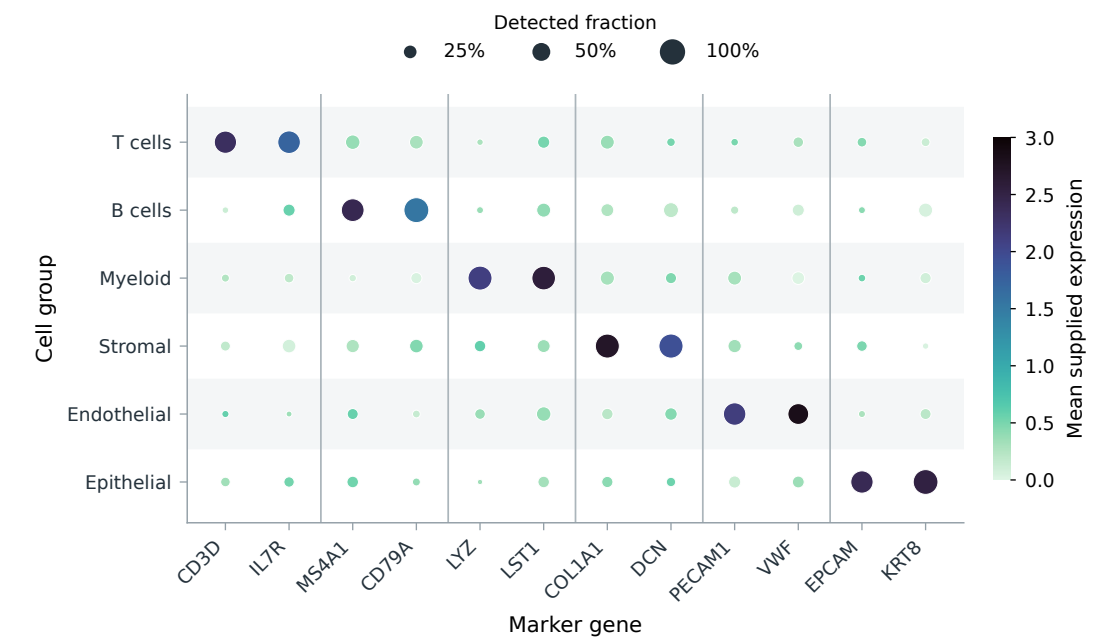

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Marker expression and detection

Synthetic style fixture | identical data in both versions

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Science 2024, Fig. 5C; Fig. 6A

DOI: 10.1126/science.adh1938

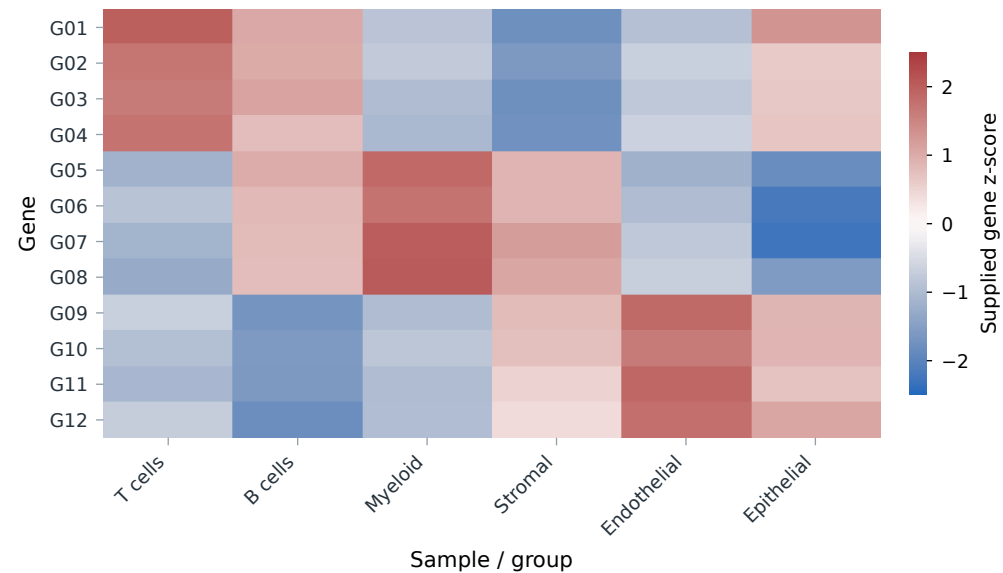

Comparison scope: Original figure captions read; author enrichment heatmap function inspected; complete published figure images not inspected in this pass

These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.

Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Expression modules with aligned annotations

Synthetic style fixture | identical data in both versions

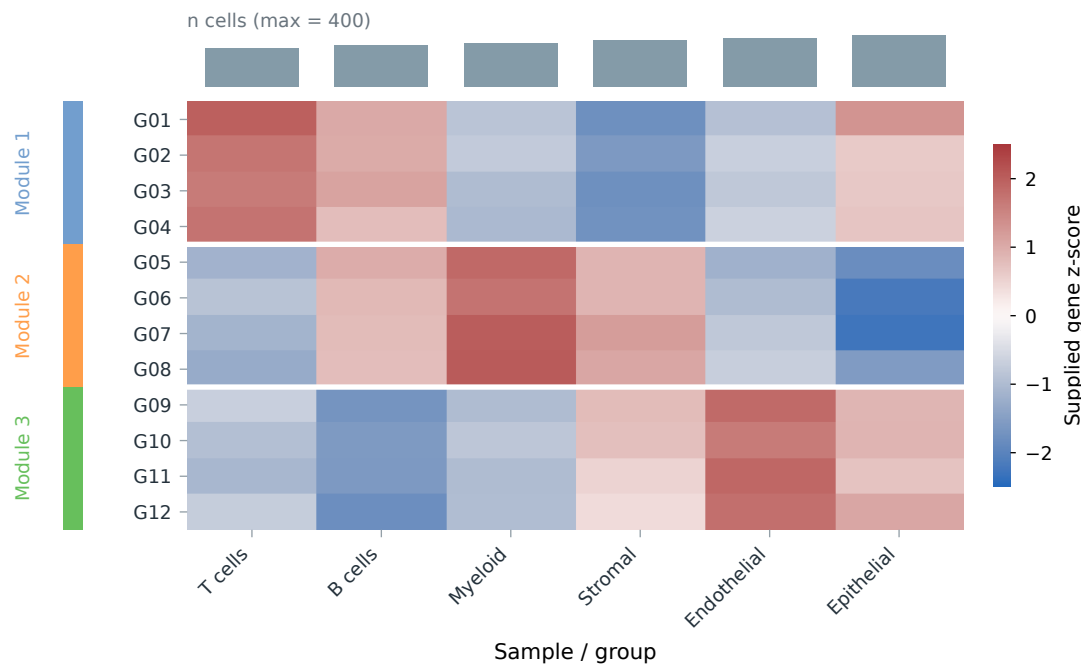

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Expression modules with aligned annotations

Synthetic style fixture | identical data in both versions

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Science 2024, Fig. 3D; Fig. 6C-D

DOI: 10.1126/science.adh1938

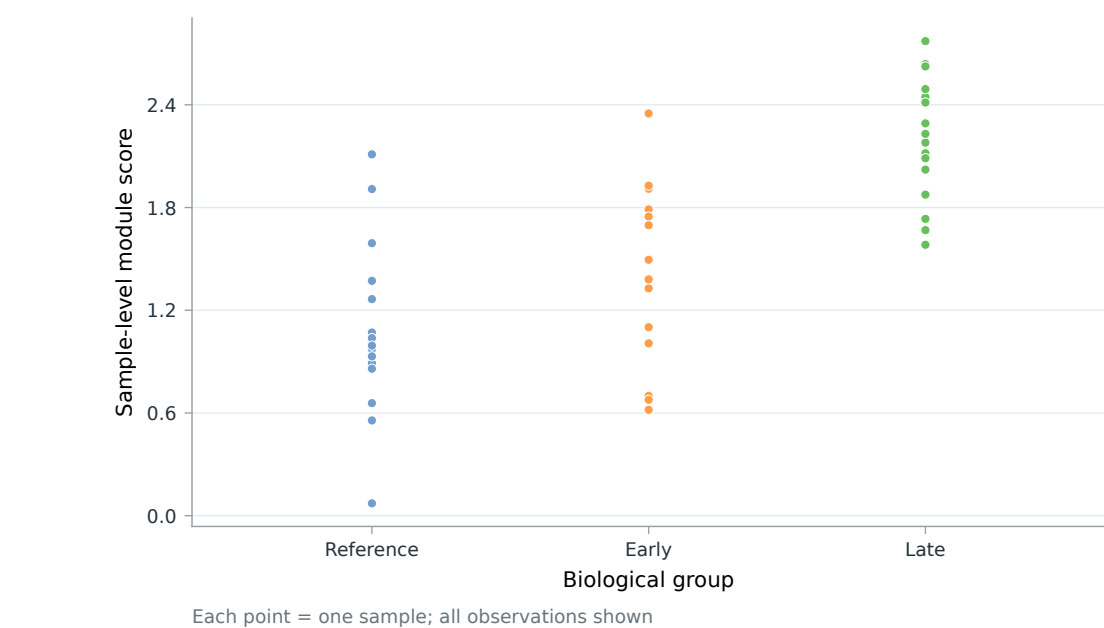

Comparison scope: Original figure captions read; author enrichment heatmap function inspected; complete published figure images not inspected in this pass

These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.

Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Distribution across groups

48 synthetic independent samples | 16 per group

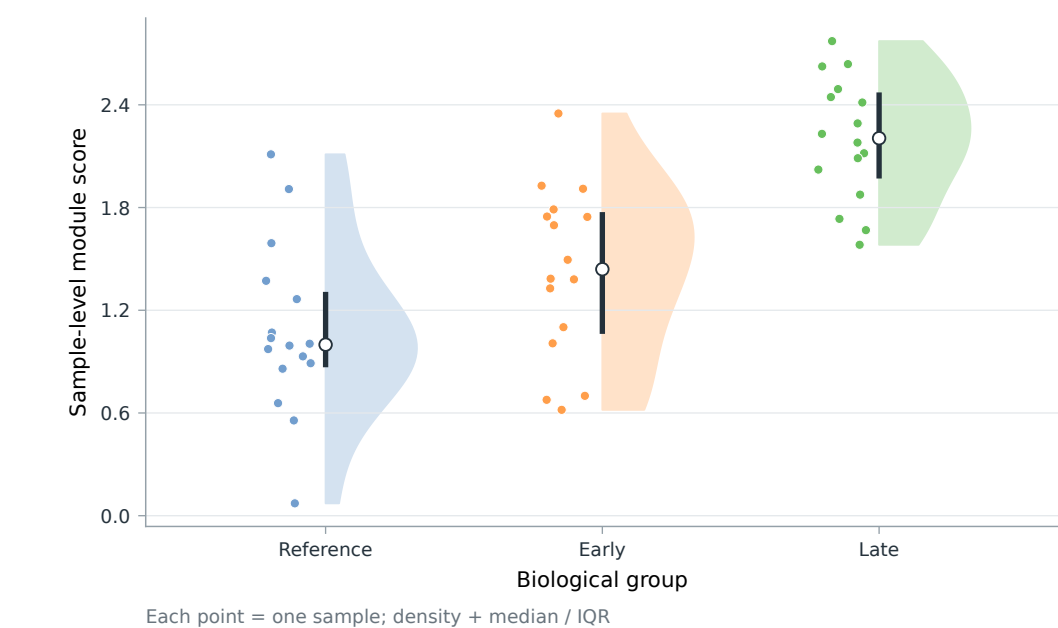

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Distribution across groups

48 synthetic independent samples | 16 per group

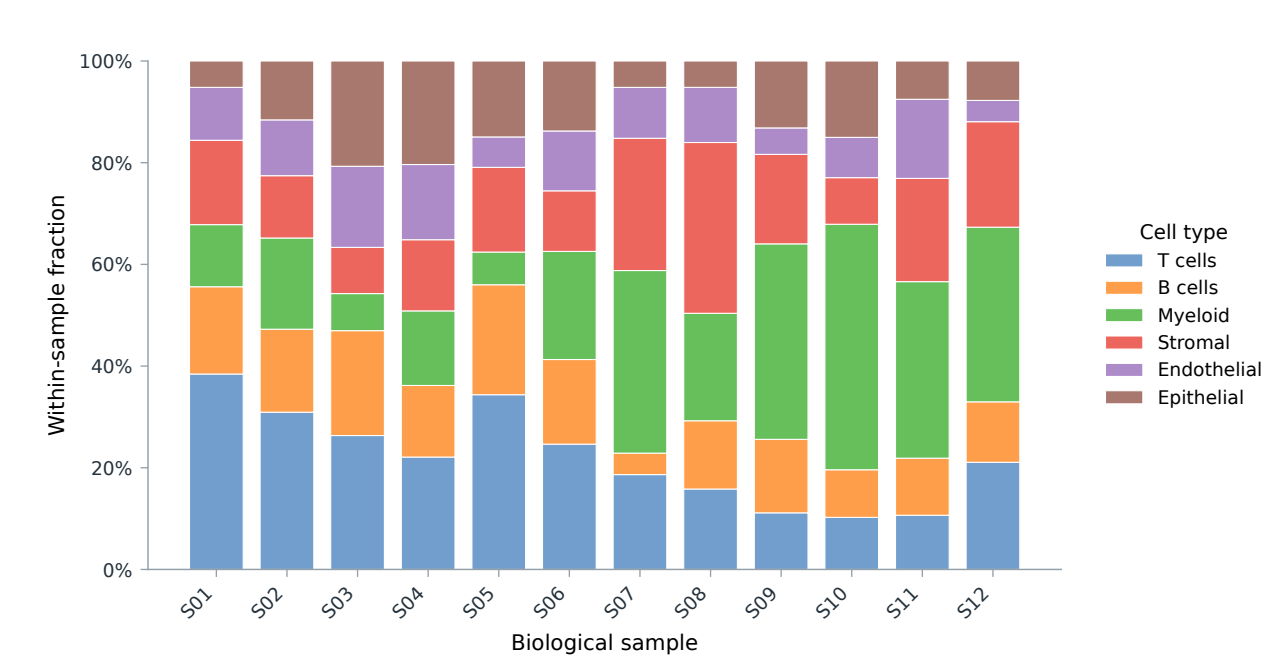

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature Genetics 2024, Fig. 3j
DOI: 10.1038/s41588-024-01664-3
Comparison scope: Figure 3 and Figure 5 images directly inspected; captions read
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Cell composition across samples

Synthetic style fixture | identical data in both versions

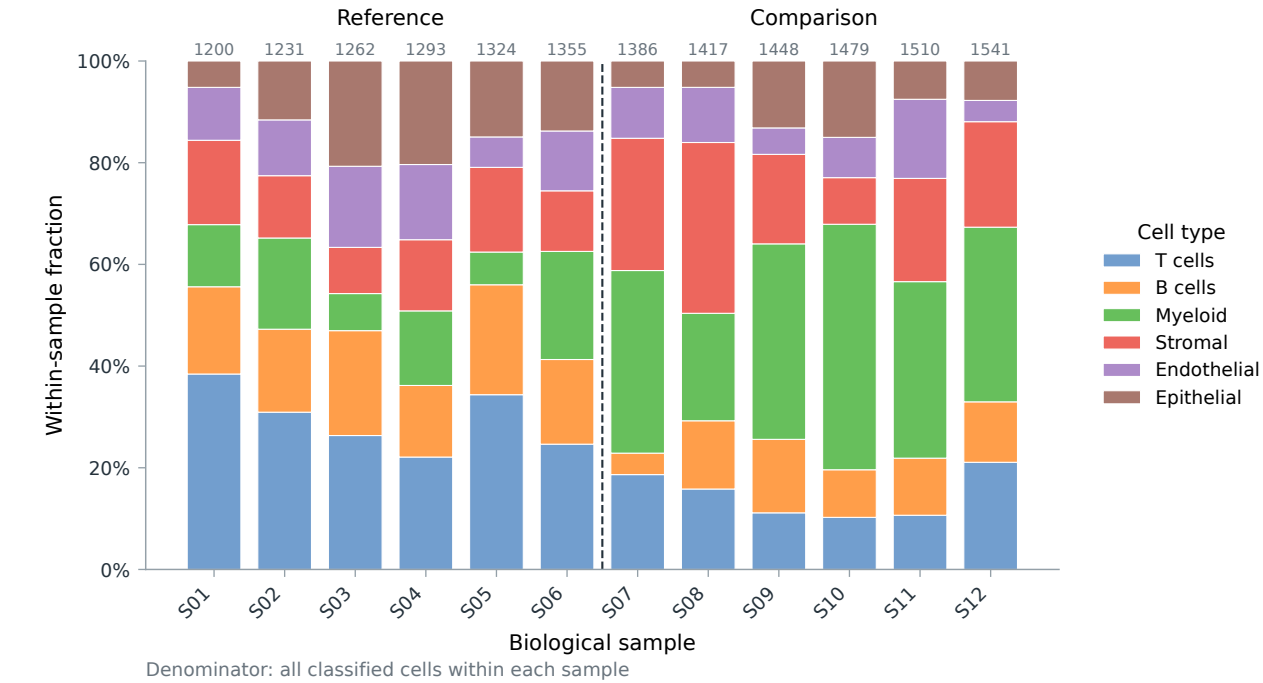

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Cell composition across samples

Synthetic style fixture | identical data in both versions

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature 2024, Fig. 5g-h

DOI: 10.1038/s41586-024-08172-8

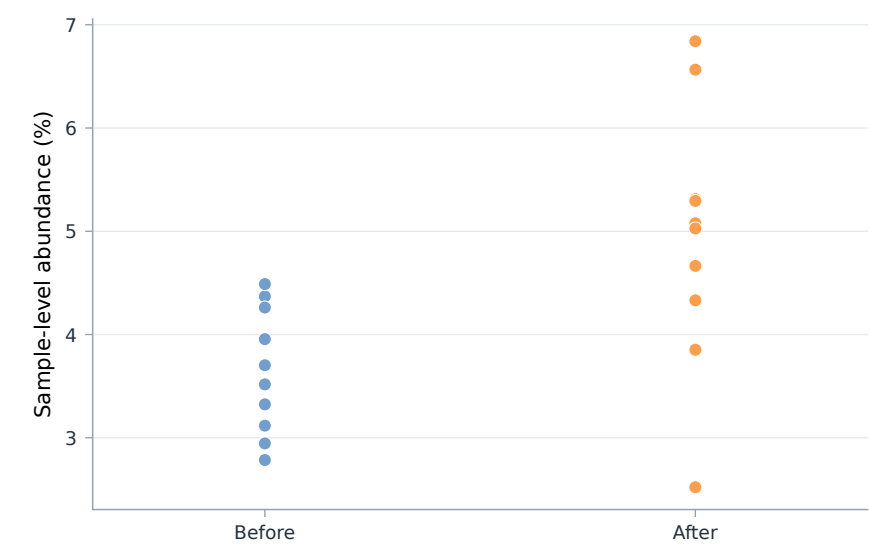

Comparison scope: Published figure captions read; no pixel-level reproduction; source figures not redistributed

These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.

Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Paired sample response

10 synthetic paired biological samples | no P value invented

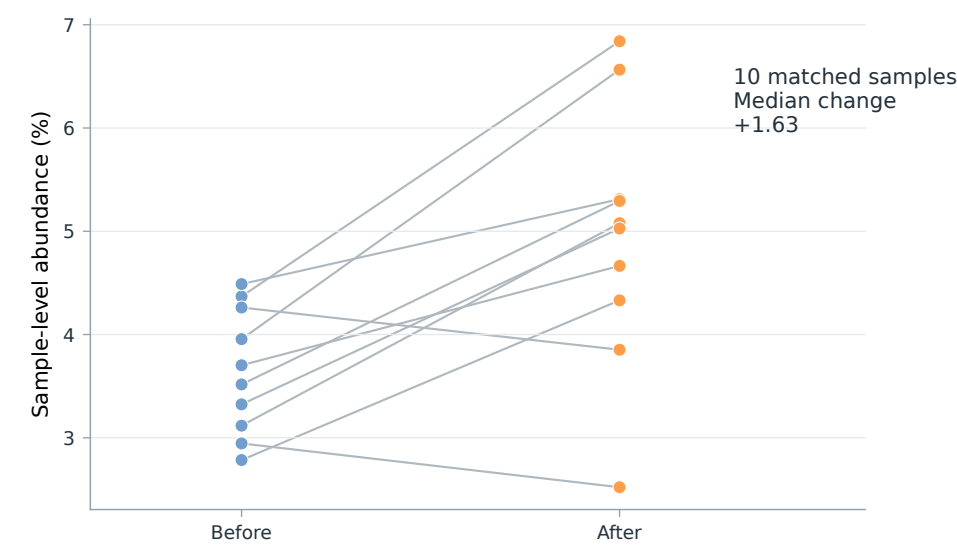

Same paired table; pairing not drawn

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Paired sample response

10 synthetic paired biological samples | no P value invented

Connected observations belong to the same sample

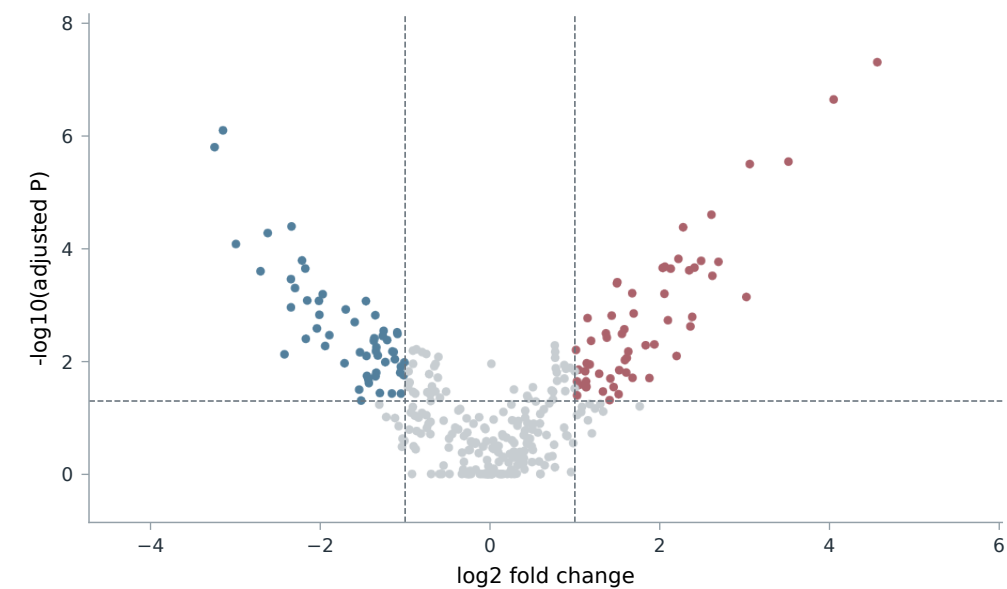

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature Cell Biology 2024, Extended Data Fig. 3C-F
DOI: 10.1038/s41556-024-01469-w
Comparison scope: Published captions and methods read; no pixel-level figure reproduction
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Differential expression summary

320 synthetic effect estimates and adjusted P values | thresholds fixed

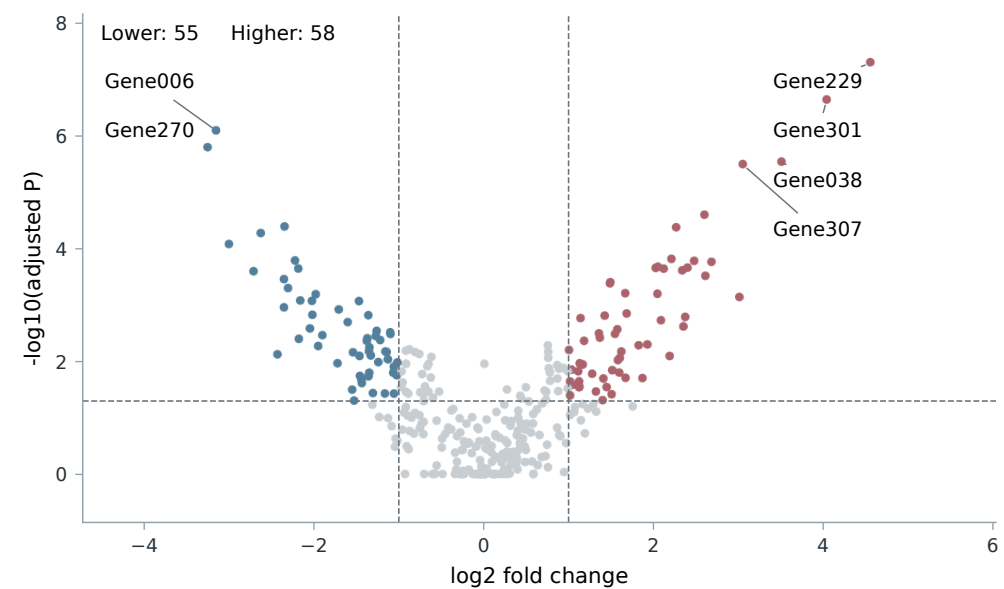

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Differential expression summary

320 synthetic effect estimates and adjusted P values | thresholds fixed

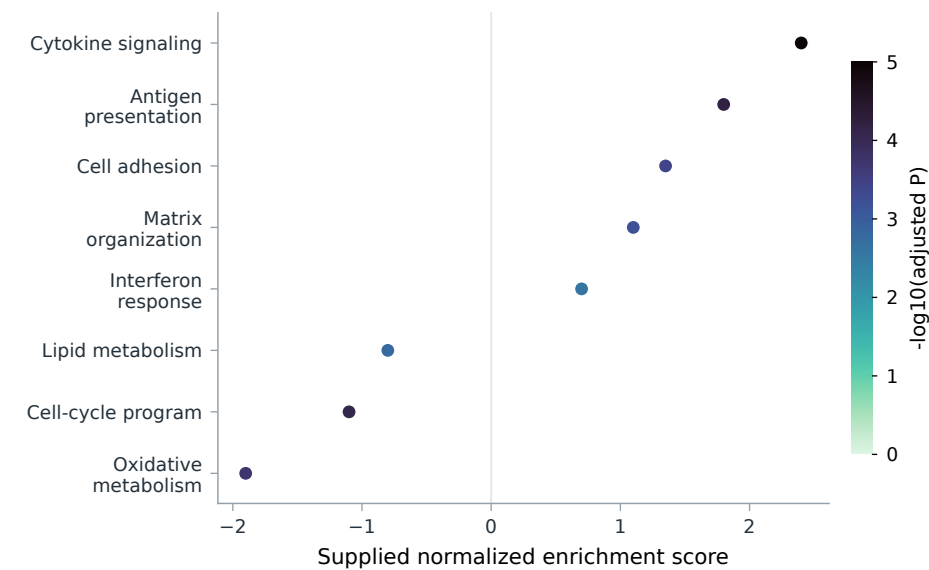

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature 2024, Fig. 5m
DOI: 10.1038/s41586-024-08172-8
Comparison scope: Published figure captions read; no pixel-level reproduction; source figures not redistributed
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Pathway enrichment profile

Synthetic style fixture | identical data in both versions

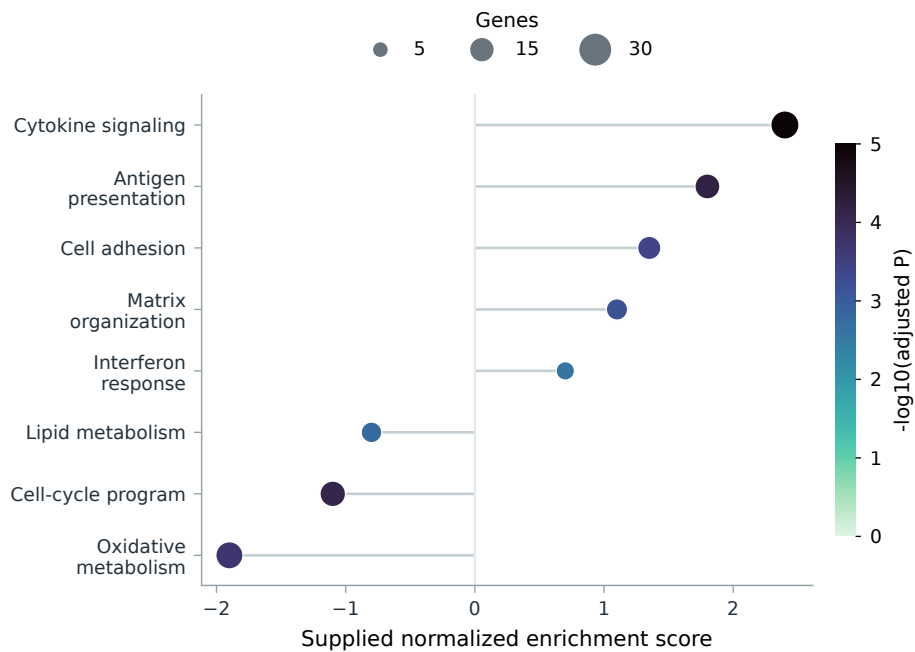

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Pathway enrichment profile

Synthetic style fixture | identical data in both versions

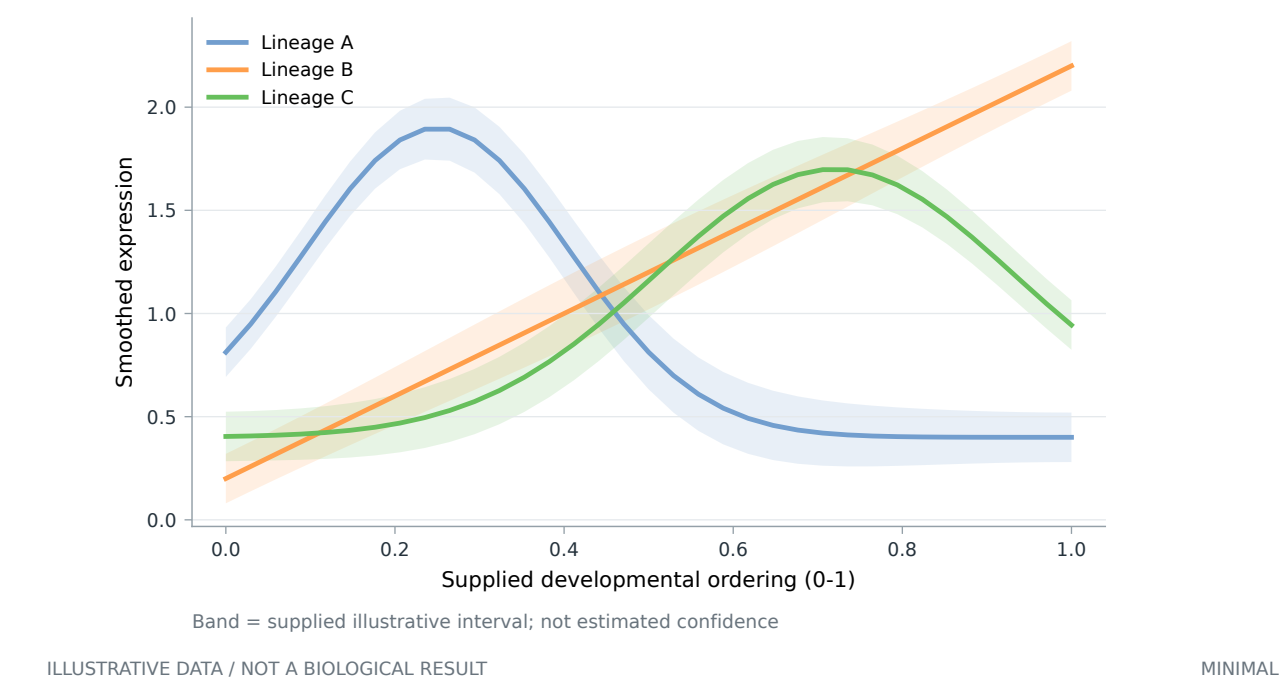

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature Cell Biology 2024, Fig. 5d
DOI: 10.1038/s41556-024-01469-w
Comparison scope: Published captions and methods read; no pixel-level figure reproduction
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

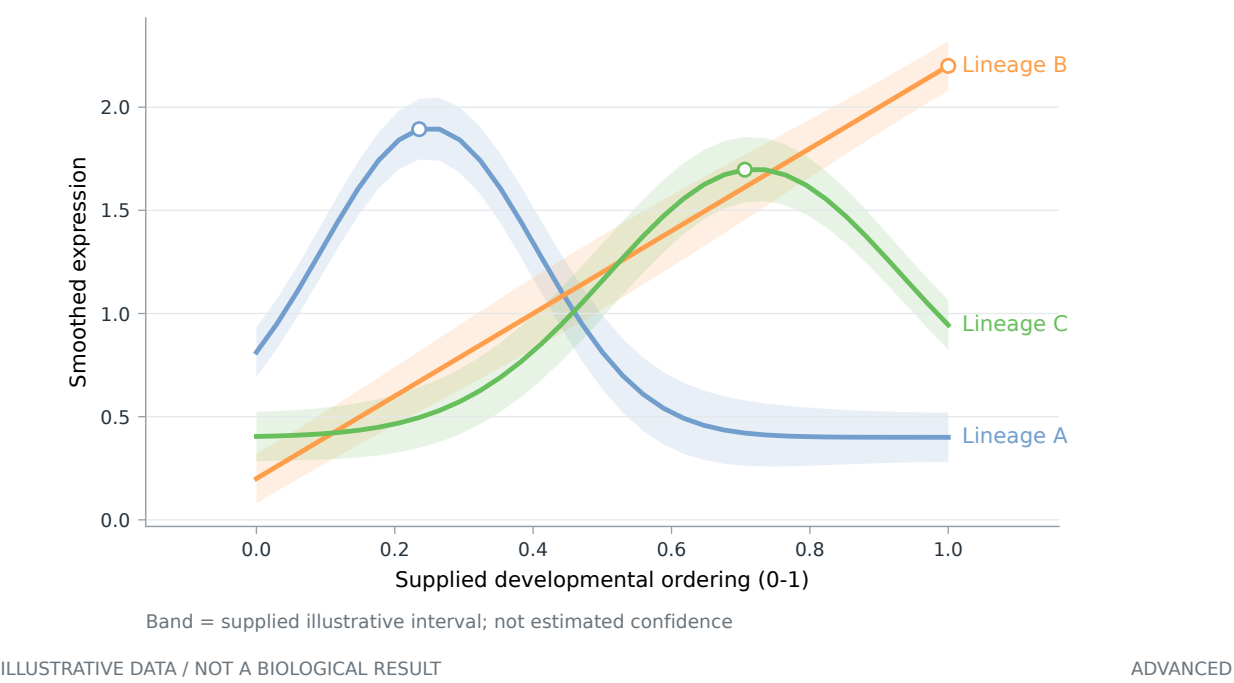

Lineage-specific temporal trends

Synthetic style fixture | identical data in both versions

Lineage-specific temporal trends

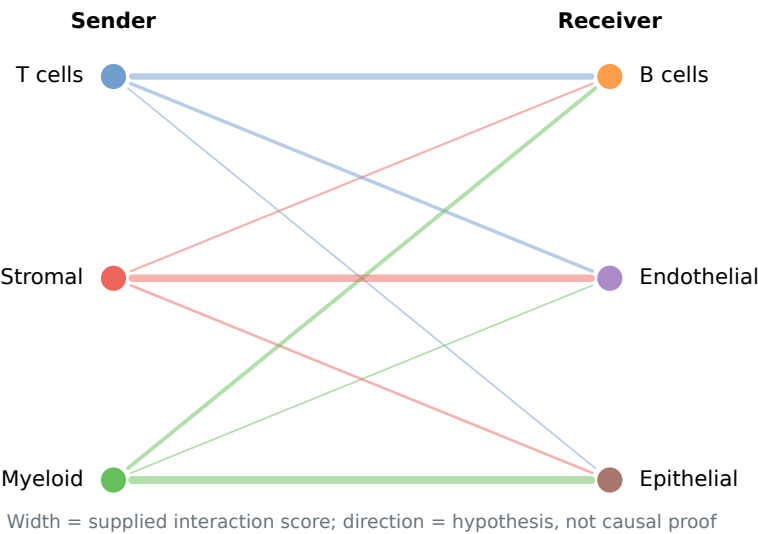

Synthetic style fixture | identical data in both versions

Reference: Nature Methods 2024, Fig. 3
DOI: 10.1038/s41592-024-02303-9
Comparison scope: Figure 3 PDF screenshot directly inspected; author trajectory plotting script inspected
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Candidate ligand-receptor communication

Synthetic aggregate interaction scores | not a causal network

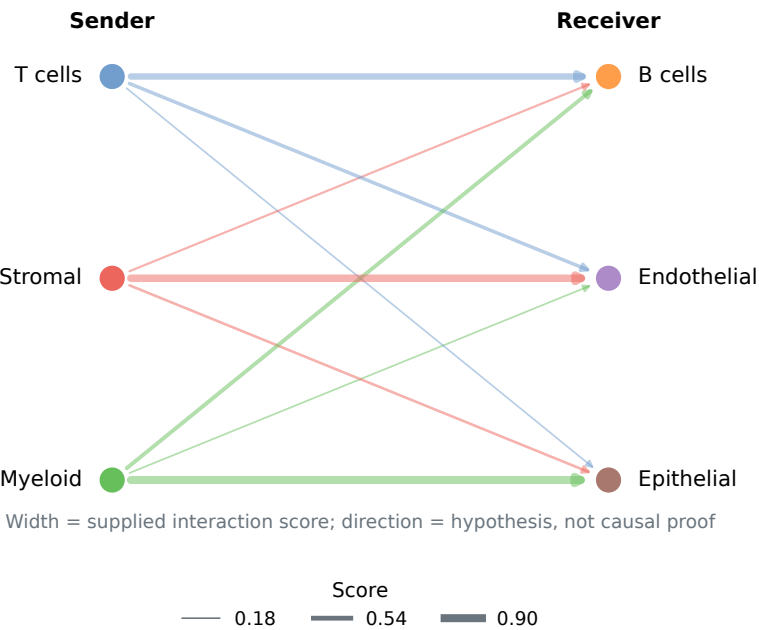

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Candidate ligand-receptor communication

Synthetic aggregate interaction scores | not a causal network

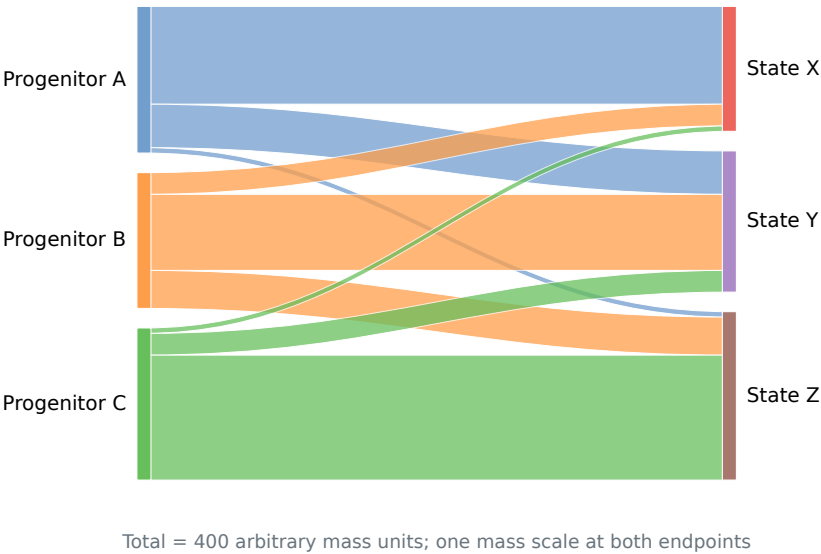

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Science 2024, Fig. 5B
DOI: 10.1126/science.adh1938
Comparison scope: Original figure captions read; author enrichment heatmap function inspected; complete published figure images not inspected in this pass
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Mass-preserving state transitions

Synthetic coupling table | widths retain the original aggregate mass

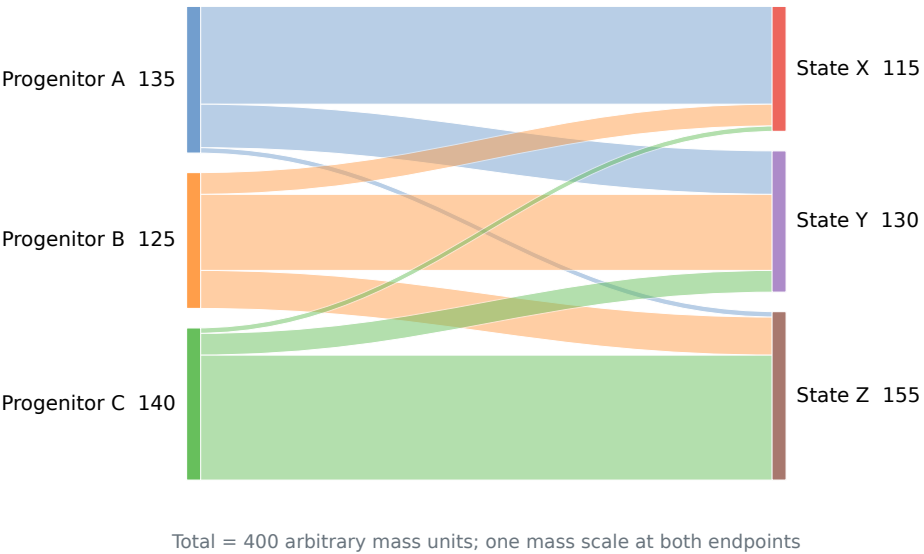

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Mass-preserving state transitions

Synthetic coupling table | widths retain the original aggregate mass

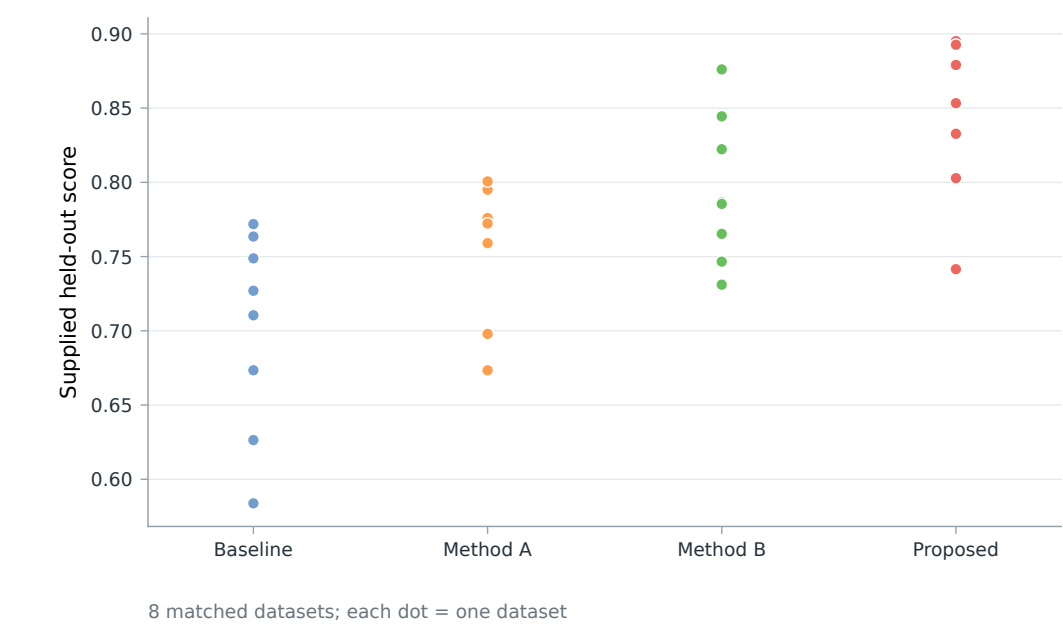

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature 2025, Fig. 5f
DOI: 10.1038/s41586-024-08453-2
Comparison scope: Published captions read; no pixel-level figure reproduction
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Performance across matched datasets

8 synthetic matched datasets | each method uses the same evaluation set

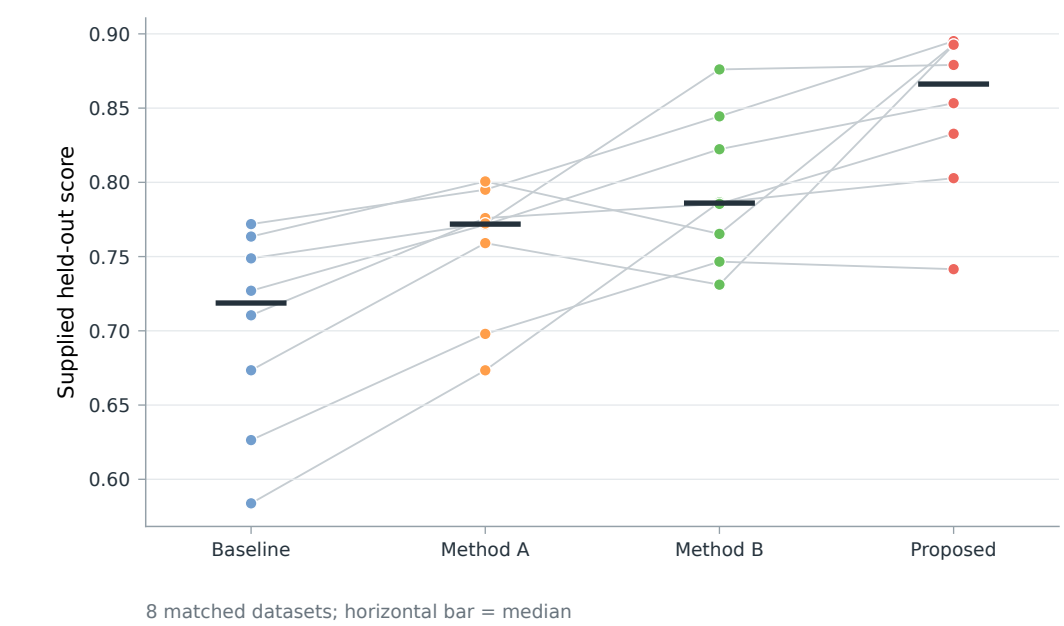

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Performance across matched datasets

8 synthetic matched datasets | each method uses the same evaluation set

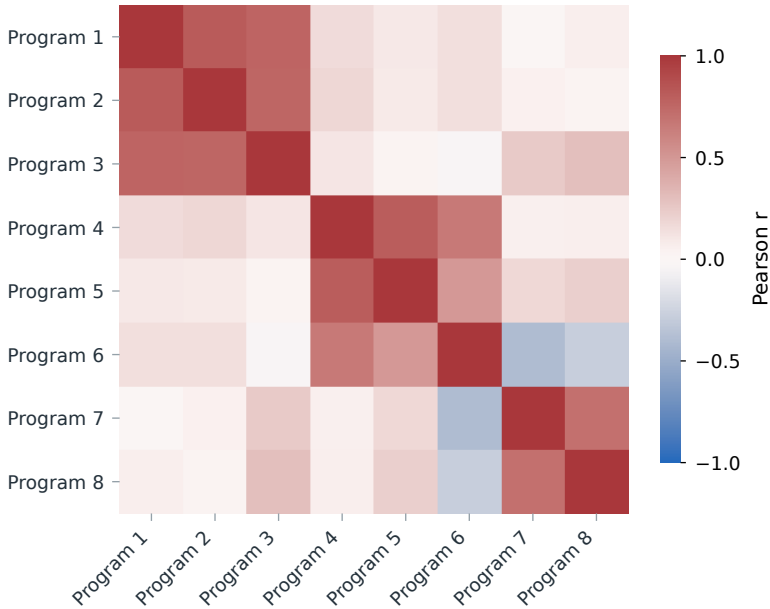

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Nature Genetics 2024, Fig. 5b
DOI: 10.1038/s41588-024-01664-3
Comparison scope: Figure 3 and Figure 5 images directly inspected; captions read
These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.
Source CSV, config, SVG and full design commentary accompany the HTML gallery.

Correlation structure

Synthetic symmetric matrix | fixed range -1 to 1

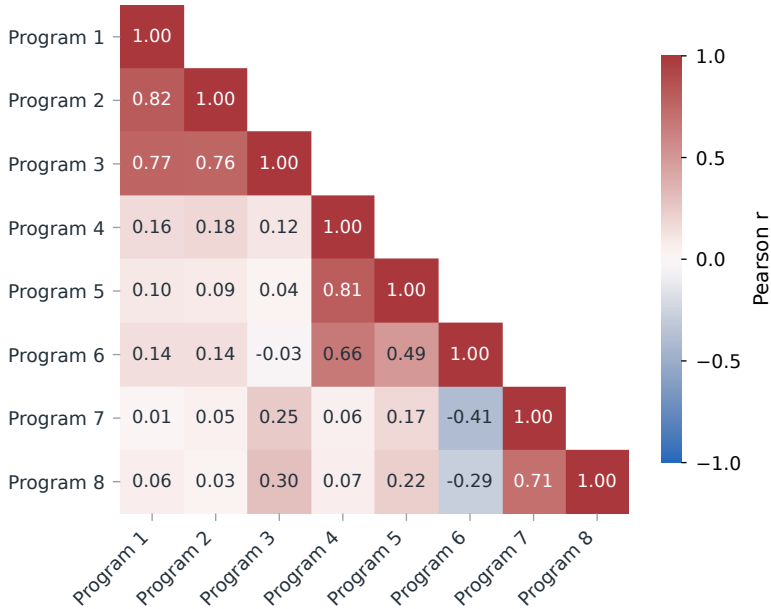

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

MINIMAL

Correlation structure

Synthetic symmetric matrix | fixed range -1 to 1

ILLUSTRATIVE DATA / NOT A BIOLOGICAL RESULT

ADVANCED

Reference: Science 2024, Fig. 3B; Fig. 1E

DOI: 10.1126/science.adh1938

Comparison scope: Original figure captions read; author enrichment heatmap function inspected; complete published figure images not inspected in this pass

These tables and graphs are illustrative software fixtures. Not a reproduction of the source data.

Source CSV, config, SVG and full design commentary accompany the HTML gallery.
